

With Corporate Cup coming up this Saturday and triple digit temperatures in the forecast, we wanted to share the CDC's Guidelines for recognizing and responding to the signs of heat-related illness.

We urge all participating companies to forward these guidelines to their teams and, if anyone should experience signs of heat stroke or heat exhaustion during the Corporate Cup, **please stop by one of the RED OrthoNow Medical tents.**

# HEAT-RELATED ILLNESSES

## WHAT TO LOOK FOR

## WHAT TO DO

### HEAT STROKE

- High body temperature (103°F or higher)
  - Hot, red, dry, or damp skin
  - Fast, strong pulse
  - Headache
  - Dizziness
  - Nausea
  - Confusion
  - Losing consciousness (passing out)
- Call 911 right away—heat stroke is a medical emergency
  - Move the person to a cooler place
  - Help lower the person's temperature with cool cloths or a cool bath
  - Do not give the person anything to drink

### HEAT EXHAUSTION

- Heavy sweating
  - Cold, pale, and clammy skin
  - Fast, weak pulse
  - Nausea or vomiting
  - Muscle cramps
  - Tiredness or weakness
  - Dizziness
  - Headache
  - Fainting (passing out)
- Move to a cool place
  - Loosen your clothes
  - Put cool, wet cloths on your body or take a cool bath
  - Sip water
- Get medical help right away if:**
- You are throwing up
  - Your symptoms get worse
  - Your symptoms last longer than 1 hour

### HEAT CRAMPS

- Heavy sweating during intense exercise
  - Muscle pain or spasms
- Stop physical activity and move to a cool place
  - Drink water or a sports drink
  - Wait for cramps to go away before you do any more physical activity
- Get medical help right away if:**
- Cramps last longer than 1 hour
  - You're on a low-sodium diet
  - You have heart problems

### SUNBURN

- Painful, red, and warm skin
  - Blisters on the skin
- Stay out of the sun until your sunburn heals
  - Put cool cloths on sunburned areas or take a cool bath
  - Put moisturizing lotion on sunburned areas
  - Do not break blisters

### HEAT RASH

- Red clusters of small blisters that look like pimples on the skin (usually on the neck, chest, groin, or in elbow creases)
- Stay in a cool, dry place
  - Keep the rash dry
  - Use powder (like baby powder) to soothe the rash
